

QUICK START GUIDE

Dashboard Overview

Understand vehicle progress, inventory activity, quick-access tools, and saved documents.

The dashboard is the central workspace for monitoring Vehicle Resume progress and dealership activity.

1. Dashboard Summary Cards

The four cards across the top provide an immediate count of vehicle status and active inventory.

1

Resume Drafts

Shows vehicles with a Vehicle Resume draft that has not yet started Step 1 of the Resume Builder. It is the initial shell waiting for additional information.

2

Ready to Print

Shows resumes that have completed Step 2. They can be printed, but they have not yet been finalized and committed as completed Vehicle Resumes.

3

Completed

Shows Vehicle Resumes that have been finalized and marked complete within the Resume Builder.

4

Inventory Vehicles

Shows the total number of vehicles currently listed in active dealership inventory or on the lot.

2. Vehicles Requiring Attention & Quick Access

Continue work on a specific vehicle or open a frequently used area of the software in one click.

1 Vehicles Requiring Attention

Vehicle	Stock #	Builder Step	Last Updated	2 Action
2025 SUBARU Forester Touring	stx5566	Ready to Print	7/25/2026	Continue →
2017 HONDA Civic LX	STX8765	Ready to Print	7/22/2026	Continue →

3 Quick Access

New Vehicle

Inventory

Vehicle Resumes

Library

1 Vehicles Requiring Attention

- Lists vehicles that still require action in the Vehicle Resume Builder.
- Displays the vehicle, stock number, current Builder Step, and last-updated date.
- The Builder Step shows the current status, such as Ready to Print.

2 Continue Select Continue to open the Vehicle Resume for that specific vehicle and resume work without searching through inventory.

3 Quick Access

Four shortcut tiles open the most frequently used areas of EZWindowSticker.

New Vehicle

Begin adding a vehicle.

Inventory

View active inventory.

Vehicle Resumes

Open existing resumes.

Library

Open saved documents and QR templates.

3. Recent Vehicle Activity & Library at a Glance

Review recent builder events and see current Library totals without leaving the dashboard.

1 Recent Vehicle Activity

- Provides a chronological record of activity completed within the Vehicle Resume Builder.
- Each event includes a date or time stamp and identifies the vehicle associated with the activity.
- Examples include completed Vehicle Resumes and feature or status updates.

Result: A clear understanding of recent work performed within the system.

2 Library at a Glance

Displays current counts for Document Templates, QR Templates, and Generated PDFs.

3 Open Library Takes the user directly to the complete Library.

4 Create Vehicle Document

Opens the Create New Document area to prepare a new vehicle document.
